

LEDINEK cooperage equipment

LEDINEK - SPECIAL - COOPERAGE MACHINES

Cooperage machines

... Building on the 100-Year tradition ...

Six decades after start of our derivation from a local cooperage, our roots are still very much perceptible within the company. The continuously and still proudly passed-on knowledge of barrel making allows us to develop high-tech cooperage machinery with such milestones as the world's first CNC stave jointing machine back in 1990.

OUR HISTORY - THE BEGINNINGS

Pavel Ledinek, founder and owner: *"Our cooperage machines have to be more than flawless, they must be perfect for they comprise it all, our roots and tradition, our knowledge and our inventive spirit."*

OUR EQUIPMENT RANGES

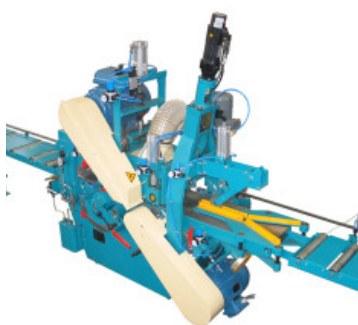

- GO** Equip yourself with high-tech solutions of big players at price for small business
- PRO** Maximize your production yield and become frontrunner in terms of capacity, production accuracy & wood savings
- MAXX** Go big with equipment for storage barrels & vats

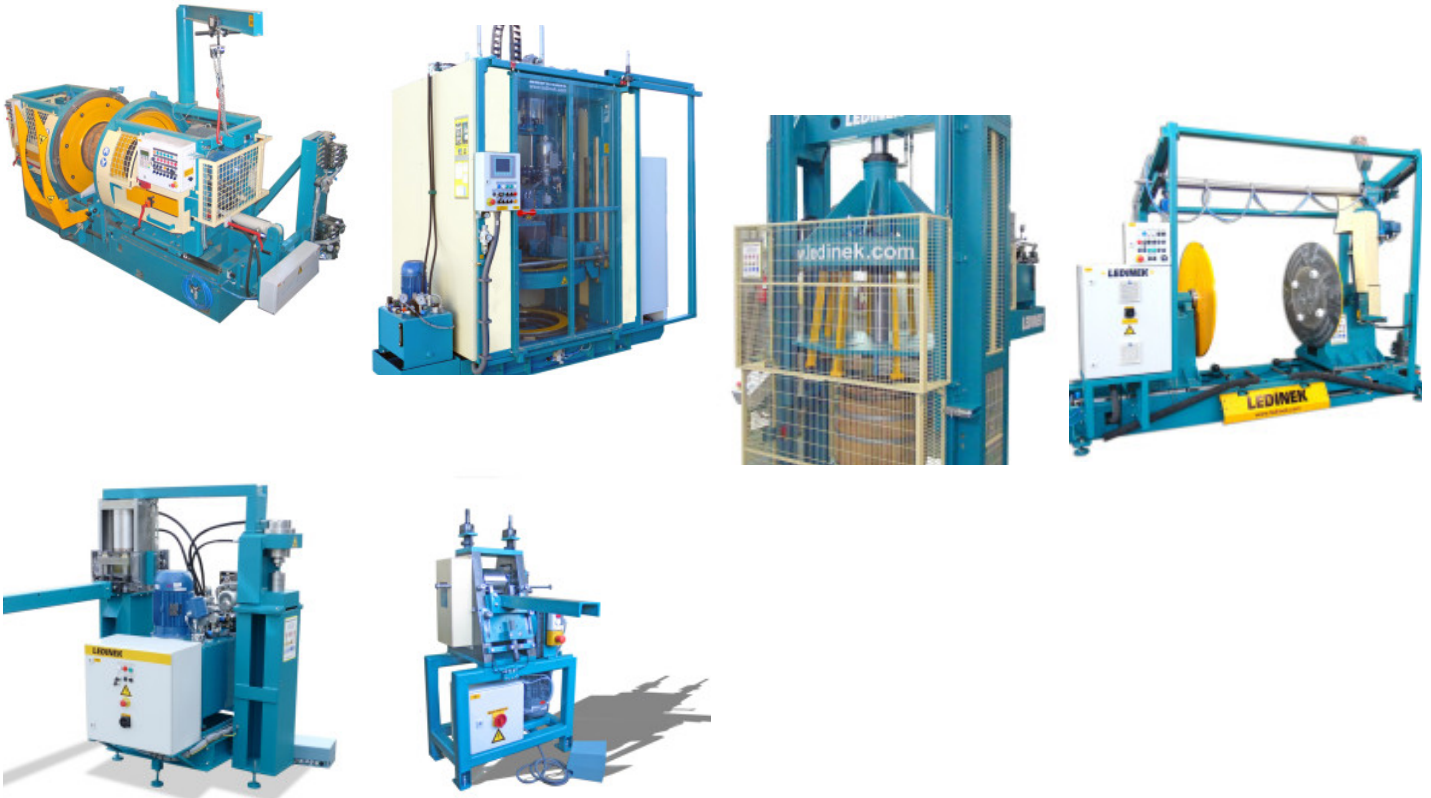

Machines for cooperages

STAVE	BARREL MANTLE	HEAD	HOOP	SPECIAL EQUIPMENT	COOPERAGE SOLUTIONS
Automatic stave planers	Automatic croze working machines	Head presses	Hoop splayers	Customized equipment on demand	Complete turn-key solutions
