

## Eurozink Compact H 800

A compact machine for large cross sections, especially suitable for production of elements for log houses.

This very versatile finger jointing machine boasts a range of innovations. It has reinvented the sector of compact finger jointing machines and still remains its most technologically advanced representative. Strong side alignment, exact positionable feed and hydraulic milling stroke will provide advantages that no other machine can.

Setting of this fully PLC controlled finger jointing machine can be executed in the shortest time, supporting highly adaptable, customer oriented production.

### Highlights:

- Small footprint
- High pressing power
- Highest productivity
- Fixed guiding fence
- Strong side pressure
- All machining steps without reclamping

## Technical data

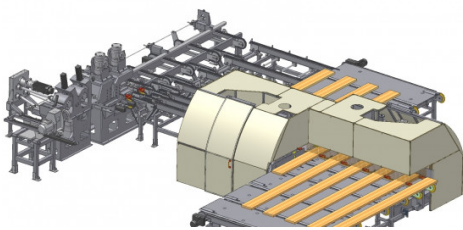

### EUROZINK COMPACT H 800

 Width	75 - 330 mm
 Thickness	20 - 180 mm
 Cycles	6 1/min
 Typical capacity	800 m/h
 Feeding speed	19 m/min
 Diameter of finger cutters	200 mm

### Machine Models

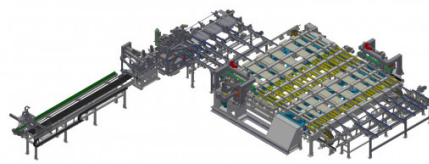

- Eurozink COMPACT H 800
