

New glulam manufacturing plant in Richland, Pennsylvania

Family owned glulam manufacturer **Rigidply Rafters, Inc.** decided to upgrade their existing glulam production capabilities with a new automated glulam manufacturing plant for curved, cambered and straight beams.

We at Ledinek are grateful for being able to participate in this important project with our solutions as main supplier and look forward to its realization.

The new plant has been developed around the advanced Ledinek cold pressing technology.

The following are the key components of the new production line:

- Infeed system for multiple qualities to be loaded into the line
- High-performance finger jointing machine **Kontizink H 5000**
- **Stratoplan** high speed planer
- **Rotopress** high capacity glulam press
- **Hyperpress** for curved beams
- **Flexipress** for special beams and columns
- **XXL-Cut** for customized length cutting
- **Superles** heavy-duty beam planers for L and XXL beams
- **X-Lam Manager** production control software
